

Reach British School

Happy Holiday Season!

Happy Holiday Season! Dear Parents, The first three months of the school year have been very successful . With December now here and bringing with it a time to reflect, I'm very proud of the school

community. It takes a lot of work and effort to develop and keep a sense of shared responsibility and continued commitment to our goal of responsibility and continued commitment to our goal of educating our students in the best manner possible. The volunteerism from parents and the support from our Students Council is impressive! I bring this up to say thank you for the efforts you have made to make Reach British School the special place that it is. I hope you have a restful, safe and enjoyable winter break! Happy Holidays! Dene Bright - Principal

Reach British School celebrates the 48th UAE National Day

Reach British School celebrates the 48th UAE National Day On the 28th November we here at RBS celebrated the 48th anniversary of the union of the emirates of United Arab Emirates. Parents, children and staff gathered to celebrate this great important day of the year. Everyone gathered to share their love and honor to the UAE. We would like to thank all of the families who joined us to celebrate this great day.

RBS Talent Show: *Reach For The Stars*

RBS Talent Show: ***Reach For The Stars*** Today marked the first ever Reach for the stars talent show in the secondary school at Reach British School. A huge congratulations to absolutely every act. It was so difficult to pick a winner due to the wealth of talent on show! Mr. Ged and Mr. Cruziane did a fantastic job organizing, Thank you parents for attending the show and a special thanks for our students for motivating their colleagues and for making the show full of enthusiasm. We look forward to seeing what talents are revealed at the next show!

RBS World Children`s Day Celebration

RBS World Children`s Day Celebration World Children`s Day is a day of action for children and with children. Reach British School celebrated World Children`s Day and this year marks the 30th anniversary of child rights. The Students Council took on some tasks, played different roles in the school, and offered help to everyone.

Bottles Recycling at Reach British School

Successfully our amazing students collected 12 bags and this is beyond the goal! Thanks to everyone who shared in collections towards saving the environment and way more to go for Term2!

Recycling is Important

Recycling is one of the best ways for you to have a positive impact on the world in which we live. Recycling is important to both the natural environment and us. We must act fast as the amount of waste we create is increasing all the time. The amount of rubbish we create is constantly increasing because: Increasing wealth means that people are buying more products and ultimately creating more waste.

Increasing population means that there are more people on the planet to create waste.

New packaging and technological products are being developed, much of these products contain materials that are not biodegradable.

New lifestyle changes, such as eating fast food, means that we create additional waste that isn't biodegradable.

Environmental Importance

Recycling is very important as waste has a huge negative impact on the natural environment. Harmful chemicals and greenhouse gasses are released from rubbish in landfill sites. Recycling helps to reduce the pollution caused by waste.

Habitat destruction and global warming are some the affects caused by deforestation. Recycling reduces the need for raw materials so that the rainforests can be preserved.

Huge amounts of energy are used when making products from raw materials. Recycling requires much less energy and therefore helps to preserve natural resources.

Importance To People

Recycling is essential to cities around the world and to the people living in them. No space for waste. Our landfill sites are filling up fast, by 2010, almost all landfills in the UK will be full.

Reduce financial expenditure in the economy. Making products from raw materials costs much more than if they were made from recycled products.

Preserve natural resources for future generations. Recycling reduces the need for raw materials; it also uses less energy, therefore preserving natural resources for the future.
