Learning at Reach British School continues beyond the four walls of our classrooms.

Our school building has been temporarily closed due to the global challenges we are facing right now. The safety and security of our students, teachers and staff is second to none. However, it is only the building that has been closed. Learning will continue to take place in the comfort of your own home.

As part of our distance learning the Reach Virtual School Learning Program ensures that learning will continue to take place wherever and whenever students require, so that they continue to make ongoing progress with their learning journey.

We have been really pleased with how our distance learning has progressed over the last three weeks. Our dedicated teachers remain committed to delivering amazing learning to all our students. From Science, Math, English, Arabic, Arts and P.E., every lesson is being closely monitored by our teachers. Throughout the week, communication is constant between our teachers and students, and teachers are also communicating with parents through Google Classrooms. With the support of technology, students, teachers and parents have created a partnership where they support each other to make sure the learning never stops.

Teachers are receiving evidence of some amazing learning and are getting a lot of feedback. Seeing active engagement from all our students encourages us to keep on giving our best, making every opportunity to provide quality learning count.

We thank all our teachers and parents without whom distance learning at Reach would not be successful.

We learn better, when we are all in this together.

## ADMISSIONS OPEN FS1 - YEAR 13

We are delighted to answer all your questions and inquiries. Please call us on **0508521801** or email us on [admissions@reachbritishschool.com](mailto:admissions@reachbritishschool.com)
